

Introduction

This is the introduction paragraph of the mini source fixture used to validate the studio:ingest pipeline end to end, checking that an ordinary body paragraph is reconstructed correctly even when it wraps across more than one printed line inside the PDF.

CHAPTER 01

Getting Started

This chapter walks through the basic onboarding steps before diving into the details covered later in the book.

- 1. Create your account and verify your email address.
- 2. Complete your profile with a photo and a short bio.
- 3. Read the community guidelines before your first post.

Step	Time Required	Difficulty
Setup	5 minutes	Easy
Configure	10 minutes	Medium

BONUS - Test Checklist

1. Confirm the chapter markers were detected correctly.
2. Confirm the numbered list survived extraction intact.
3. Confirm the table rows kept their columns separated.
